

Don't Look Back

Anvil

Rose coloured glass
When you think of the past
All gone in a blink
The good old days
Vanished in a haze
Faster than you think
Than you think

Heartbreak and lost
How much does it cost
To learn a lesson well
Wrong turn right turn
Just another bridge to burn
On the way through hell

Living with no regret
Thankful for what ya get

Don't look back

Yesterday's news
You gotta pay your dues
Rules of a game
Tomorrows dream
What's the scheme
Loosing should have no shame

Never meant to cause it
Skeleton in the closet
Only yourself to blame

Leaving the past behind
Open door to a future find

Don't look back
Don't look back
Don't look back

Forget the pain
Don't relive it again
There's a time to move on
Future at stake
A chance you must take
Grab it before it's gone

Learn from mistakes
The loss of good breaks
Focus on your goal
Go forward be brave
Putting flowers on your grave
God bless your soul

Living with no regret
Bad times you must forget

Don't look back
Don't look back

Don't look back

Don't look back

Don't look back

Don't look back
