

Explosive Energy

Anvil

Say, hallelujah, I'm glad to know ya
Come on everyone let's go
Gonna bring it to ya just like I knew you
Just like you wanted to know

When the lights go down you can feel it all around
Excitement is in the air
Like a switch turned on or a time bomb
Just some clean fun if you dare

Explosive energy
Explosive energy
Let it out
Explosive energy
Explosive energy
Scream and shout

Give what ya got, what ya love a lot
Hope it never goes away
Do what you will it's only until
Until the end of the day

Explosive energy
Explosive energy
Watch it grow
Explosive energy
Explosive energy
Let it go

Like a torch burning, cauldron stirring
Magic from a spell
Blood begins boiling, there is no spoiling
Of a good day in Hell

When all's been done you'll have had your fun
No matter what the cost
You can't buy love or god above
Hope can't be lost

Explosive energy
Explosive energy
Let it out
Explosive energy
Explosive energy
Scream and shout

Explosive energy
Explosive energy
Let it go
Explosive energy
Explosive energy
Watch it blow
