

## Fire Rain

Anvil

Burning fragments of iron ore  
Coming down  
Streak the sky and begin to pour  
All around

Fire rain, fire rain, fire rain

Bringing flames to the landscape  
Wild fire  
Run for your life, try to escape  
Desperate and dire

Fire rain, fire rain  
Fire rain just comin' down  
Fire rain, fire rain  
Fire rain just comin' down

Burning cinders set to ignite  
Fire storms and flames alight  
Alright

Universes energy falls from the sky  
Coming down  
Boulders burning and death is nigh  
All around  
Run for cover, and go, and hide  
Wild fire  
Underground or stay inside  
Desperate and dire

Fire rain, fire rain  
Fire rain just comin' down  
Fire rain, fire rain  
Fire rain just comin' down  
Fire rain, fire rain  
Fire rain just comin' down
