

## Run Away

Anvil

When I find trouble, I exit on the double  
Get me out fast, don't be last  
Outta here, outta here  
Never like a fight, staying outta sight  
All I gotta say is keep me away  
And clear, and clear

A hiding place where they'll find no trace  
Get my ass in gear

Run away, run away  
Run away, run away

You know I must confess I hate the stress  
Finding a route to get me out  
Get me out  
Love to live care free, the only way to be  
Ya gotta shout, there is no doubt  
No doubt

When the chips are down ya won't find me around  
That's what I'm about

Run away, run away  
Run away, run away

Run away, run away

Conflict to avoid or be annoyed  
Just gotta say, keep it away  
From me, from me  
I don't need advice or to pay the price  
Wide open eyes hear the lies  
And you'll see, and you'll see

Until my final end I don't need a friend  
To be my enemy

Run away, run away  
Run away, run away  
Run away, run away

Until my final end I don't need a friend  
To be my enemy

Run away
