

Shockwave

Anvil

Disaster time, we don't know when it will come to be
Looking through blinded eyes what we want to see

A crazy world in which we live like children at play
The wake up call may soon be here and send us all away

They never let us know or give a reason why
When a disaster hits hoping you won't die, don't die

Shock wave
Shock wave
Shock wave
Shock wave

Warning signs, we never see they could seal our fate
To be aware and show you care you know it's not too late

They never let us know or give a reason why
Discover your destiny and if you live or die, live or die

Shock wave
Shock wave
Shock wave
Shock wave

The final hour may never pass or never come to be
Imagination in your mind becomes reality

They never let us know or give a reason why
No matter the consequence we know we must survive, must survive
