

## Down, Down

Anxious

What do you want?  
Well I can't explain  
Well you'd be down, down, watch in the mean while  
While I'm moving  
All myself away  
You can see me down, down, lost under green light

In the end I should've said  
I wish it could be me there  
Or have I done what's been asked of me?  
In the end I should've said  
"I wish you could see me here"  
But opening up was my first mistake

So should we fight?  
Throw it all away?  
Well you'd be down, down, lost and it seems wild  
Guess it's alright  
Would've anyway  
You would see me down, down, washed from the green light

Is it my fault?  
Or can I stop before I say  
"I'll see you around"?

In the end I should've said  
I wish it could be me there  
Or have I done what's been asked of me?  
In the end I should've said  
"I wish you could see me here"  
But opening up was my first mistake

In the end I should've said  
I wish it could be me there  
Or have I done what's been asked of me?  
In the end I should've said  
"I wish you could see me here"  
But opening up was my first mistake
