

Seeds

Anxious

Watched you grow
Watched you go

A person bloomed then they died
A seed was sewn, brought new life
But one far from me

I'll watch from afar
Pretend I know who you are
You seem better now

And friends like seeds
Get sewn, blow on and on
Leave me to grow
Watch me move on and on

I cared for you
For me you did too

People drift just like the leaves
You might fall from the tree
Gently crushed by those walking right by you
Man I miss you
But I'd never tell you
But these things I've got to say:

Past times, they have died
Past times, they have died
Past times, they have died
Past times, they have died
Past times, they have died
Past times, they have died
Past times, they have died
Past times, they have died

And friends like seeds
Get sewn, blow on and on
Leave me to grow
Watch me move on and on

And friends like seeds
Get sewn, blow on and on
Leave me to grow
Watch me move on and on
