

There are people I wanna hurt
Brutally destroy
Beat brutally into the ground
Until they stop breathing
But I won't
But I won't, no I can't
'Cause violence is ignorance
And your ignorance is pain

Why am I
Always playing this game of tug of war
Fight for what I believe in
And I let the rest go
I'm gonna take this place it's

And I will never
I will never be like those

I will never be like you
I'm never gonna be just like you
I will never be like you

I will never be like you
I'm never gonna be just like you
I will never be like you
