

I've Made a Change

Anya Marina

Always been so lost, never fit in
Never felt quite right in my skin
When I saw you with your secret eyes, I was found
Now I feel so new, I've made a change
Gotta wonder where I was all these days

I've been here all along
Yeah, I've been here just waiting it out

Always been so lost, never fit in
Never felt quite right in my skin
Now I feel so new, I've made a change
Gotta wonder where I was all these days

'Cause I've been here all along
Yes, I've been here just waiting it out
Never knew the power just under my fears
Never knew the hunger but it thunders in my ears so loud

'Cause I've been here all along
Yes, I've been here just waiting it out
Never knew the power so quiet inside
I never knew the beauty but you saw it in my eyes somehow
Let it out

Now I feel so new, I've made a change
And I am found

Why don't you show yourself? Why don't you show yourself?
Do it just to do it
Or do it like you're someone else
Why don't you show yourself? Why don't you show yourself?
Do it just to do it
Or do it like you're someone else
...
