

What I'd give to see the color green  
Leave it all to find serenity  
Turn my back, turn my back to see  
If I can breathe if I leave the city  
Urban nights have had the best of me  
And downtown lights, I feel no synergy  
Drowning in a pool of grey if I don't go away  
If I stay another day

Hearts' beat burning up the street  
I'm out of sight, out of sight  
Speeding like a drag race, longing to be free  
I'm taking flight (gotta take flight now, gotta take flight now)  
Escape the overrun, escape the overrun (tonight)  
I'm out of here and hearts' beat burning up the street  
Driving for the light

Concrete mountains tower over me  
No sights of home in the air I breathe  
I need the sun, need as warmth to feel  
All my worries live within the city  
And now the pace in my heartbeat  
Has left me pounding the escape key  
Drowning in a pool of grey if I don't go away  
If I stay another day

Hearts' beat burning up the street  
I'm out of sight, out of sight  
Speeding like a drag race, longing to be free  
I'm taking flight (gotta take flight now, gotta take flight now)  
Escape the overrun, escape the overrun (tonight)  
I'm out of here and hearts' beat burning up the street  
Driving for the light

I'll leave the city, leave the city  
Urban nights, urban nights got the best of me  
I'll leave the city, leave the city  
Urban nights, urban nights got the best of me

Hearts' beat burning up the street  
I'm out of sight, out of sight  
Speeding like a drag race, longing to be free  
I'm taking flight (gotta take flight now, gotta take flight now)  
Escape the overrun, escape the overrun (tonight)  
I'm out of here and hearts' beat burning up the street  
Driving for the light

I'll leave the city, leave the city  
Urban nights, urban nights got the best of me  
I'll leave the city, leave the city  
Urban nights, urban nights got the best of me  
I'll leave the city, leave the city  
Urban nights, urban nights got the best of me
