

Roam

ANYA

Pour me something colorful, make it a double
And promise me that we can go fast
Never slow down, never slow down
Slow down, never slow down

Say we don't have to go home
Stay by my side
We can run, we can roam
Run with me
Come roam with me
Come roam with me
Come roam with me
Roam with me
Say we don't have to go home
Stay around 'cause when I lay my head down
I'm alone
Come roam with me
Come roam with me
Come roam with me
Roam with me

Hand me my bag please, I'll pay for it all
Just promise me that we can go fast
And never slow down, never slow down
Slow down, never slow
Never slow down

Say we don't have to go home
Stay by my side
We can run, we can roam
Run with me
Come roam with me
Come roam with me
Come roam with me
Roam with me
Say we don't have to go home
Stay around 'cause when I lay my head down
I'm alone
Come roam with me
Come roam with me
Come roam with me
Roam with me

This feeling in my chest
Got me roamin' round
Never slowin' down
You can find me in the night
In the white lights
In the white lights
This feeling in my chest
Got me roamin' round
Never slowin' down
You can find me in the night
In the white lights
In the white lights

This feeling in my chest

Got me roamin' round
Never slowin' down
You can find me in the night
In the white lights
In the white lights

Say we don't have to go home
Stay by my side
We can run, we can roam
Run with me
Come roam with me
Come roam with me
Come roam with me
Roam with me
Say we don't have to go home
Stay around 'cause when I lay my head down
I'm alone
Come roam with me
Come roam with me
Come roam with me
Roam with me

This feeling in my chest
Got me roamin' round
Never slowin' down
You can find me in the night
In the white lights
In the white lights
This feeling in my chest
Got me roamin' round
Never slowin' down
You can find me in the night
In the white lights
In the white lights

This feeling in my chest
Got me roamin' round
