Anycia

Yuh
Wait
Bitch
What the hell going on?
Yuh
Yuh

I took a break for a while and these bitches. They thought I was done
I see the mini-me copycat bitches
You're cracking nem jokes finna clap me a gun
I hope that you, bitches, den had all the fun
Went to fuck on my nigga in yammi he singing but keep him a gun

I hope yo don't think that I'm dumb
Bitch, I started rapping with low effort
I think that I started a trend
You don't see me hanging with broke bitches
I really don't care to make friends
I really don't care to be cool
Pull up and pop it. Don't mean to be rude
Brand-new Balenci get me in the mood
Money for marni but I'm wearing babyphat
Pulling up 30 deep and we back to back

Bad bitch so he got me a Maybach
I don't argue with bitches just say where you stay at
Boy, if you broke, then just say that
Bitch, if you need it, then get it
Nigga, you want it, so spend it

I'm in a big black truck. Long hair, big Glock
Thick shit with a blue pension
Sitting at home with my palm itching
I am that bitch that you need
Better than bitches. I mean it
Baddest bitch you ever seen
Pretty and rich, I'm a dream
Crazy bitch, I make a scene
Know that you broke, so, come fuck with the team
Booty gon' bust at the jeans

I took a break for a while and these bitches. They thought I was done
I see the mini-me copycat bitches
You're cracking nem jokes finna clap me a gun
I hope that you, bitches, den had all the fun

Pulling up 30 deep and we back to back

Oh. We back to back
Oh. We back to back
I'm coughing 'cause of you
I'm sick of these bitches
You feel what I'm saying

I took a break for a while and these bitches. They thought I was done
I see the mini-me copycat bitches
