Yeah, yeah
Big Nene, yea

I been through too much so I can't take nun from no hoe
I don't like nobody in my business 'cause I'm grown
They say what they want but I know that you packing poles
Ain't the type to trip about no bitch 'cause they be broke
Do my dirty on the side - if you a hoe, then I'm a hoe
When you stick it in it glide, so it's hard to let me go
I be super pressed for time, so I see you when I can
I might tell you that I love you but I do not want no man
Tryna fuck you on a jet, get it wet, that's the goal
She think she seeing me? I think she smoking dope
I'm trying to take you home and get you out yo clothes
I call you Gary 'cause you come with different strokes
Every time, we might fuck around but I know that you're mine
It bother you that I ain't never on your time
But I'm like nigga so what?
When I drop the dot you know it's time to dig in these guts
(Yeah)
We can chill and catch up
