

Hypnotized

Anyma

No chemicals, just perfect chemistry
Like heaven's touch, you leave a mark on me

The more I fight it, the deeper I go
I'm spiralling down, I lose all control
The more I hide it, the weaker I grow
This perfect illusion, don't wanna let go

I feel hypnotised
Circles in my eyes
I'm losing my mind
I feel hypnotised
Blinded by your light
Holding on for life

The more I fight it, the deeper I go
I'm spiralling down and I lose all control

I feel hypnotised, I'm losing my mind

These broken dreams don't need a remedy
Don't take away my darkest memories

The more I fight it, the deeper I go
I'm spiralling down, I lose all control
The more I hide it, the weaker I grow
This perfect illusion, don't wanna let go

I feel hypnotised
Circles in my eyes
I'm losing my mind
I feel hypnotised
Blinded by your light
Holding on for life

The more I fight it, the deeper I go
I'm spiralling down and I lose all control
The more I hide it, the weaker I grow
This perfect illusion, don't wanna let go

I feel hypnotised
Circles in my eyes
I'm losing my mind

I feel hypnotised
Circles in my eyes
I'm losing my mind
I feel hypnotised
Blinded by your light
Holding on for life
