

Leave A Mark

Anyma

Gravity's pulling me
And the sky is falling down
While I burn, tables turn
And you're nowhere to be found

All the times I've been there for you
Did I even leave a mark?
The first time that I reach out for you
And you've left me in the dark
You've left me in the dark
Did I even leave a mark?

Did I even leave a mark?
Did I even leave a mark?

Gravity's pulling me
And the sky is falling down
While I burn, tables turn
And you're nowhere to be found

All the times I've been there for you
Did I even leave a mark?
The first time that I reach out for you
And you've left me in the dark
You've left me in the dark
Did I even leave a mark?
You've left me in the dark

Did I even leave a mark?
Did I even leave a mark?
