

Now Or Never

Anyma

Hanging by a thread
Don't know where it goes
Calling your name
And I only hear echoes
I wanna trust again
You're my only hope
If I'm going to break
Will you hold on or let go? (Woah)

Don't know till it's now or never
Don't know what we're on edge of
So quit saying you'll be there for me
'Cause you don't know till it's now or never
Don't know till it's now or never
Don't know what we're on edge of
So quit saying you'll be there for me
'Cause you don't know till it's now or never

'Cause you don't know till it's now or never
'Cause you don't know till it's now or never
'Cause you don't know till it's now or never
