

World Without Love

Anything Box

If I heard you say, "The world is everything" I would be dreaming of
living quietly. And if I heard you say, "The world is too cold to
touch." I could change your mind with just a kiss...
What are we gonna do in a world without love... What are we gonna do
in a world without love...
Do we feel the pain of our neighbor's heart, do we understand the
human mind? 'Cause if we did, would it make us live together in
this
lonely world? In this lonely world...
What are we gonna do in a world without love...
What are we gonna do in a world without love...
If you walk this way, and you dance with me... Hopefully I can
change
your loneliness. 'Cause in your eyes I see the laughter hiding
so deeply always within you...
What are we gonna do in a world without love...
What are we gonna do in a world without love...
Sweet love...
