

# Reckless Reckless

Anyway Gang

Ten long summer days come and go in the back of my mind  
I think I love you again

You and me were sipping cokes  
Kissing where we couldn't be found  
I think I love you

Do you think of me?  
The way I still think of you

Reckless reckless don't try to save us  
We had time that nobody gave us  
Reckless reckless don't try to change us  
We had time but we're running it down, running it down now

One more silhouette fading in the dark of the night  
I think I love you again  
No one could have told us we were living in the time of our lives  
I think I love you

Do you think of me?  
The way I still think of you

Reckless reckless, don't try to save us  
We had time that nobody gave us  
Reckless reckless don't try to change us  
We had time but we're running it down, running it down now

Running it down, running it down

Do you think of me  
The way I still  
Do you think of me  
The way I still  
Think of you

Reckless reckless, don't try to save us  
We had time that nobody gave us  
Reckless reckless don't try to change us  
We had time but we're running it down, running it down now

Reckless reckless, don't try to save us  
We had time that nobody gave us  
Reckless reckless don't try to change us  
We had time but we're running it down, running it down now
