

## Remember To Forget

Anyway Gang

Where do I begin? On the outside looking in  
You can bring a horse to water but you'll never make him swim  
They say, "you got a lotta heart, kid, I liked you from the start  
Just that everybody else is so much quicker on the draw"

True hearts ain't easy to find  
Just don't go further than this heart of mine  
These cards are here to remind us  
That we've been here before, it's just a matter of time

I went to the bar, pretty soon I'm seeing stars  
We drink to remember to forget who we are  
Away from all the city lights, all the traffic in your mind  
All the hits, all the misses, tongue sharper than a knife

True hearts ain't easy to find  
Just don't go further than this heart of mine  
These cards are here to remind us  
That we've been here before, it's just a matter of time

I've been outdone, I've been outnumbered on the odds again  
I've been outbid, I've been outwitted, don't you forget  
I love you 'til the end  
Yes, I love you 'til the end  
[?] ceremony, I could be your one and only  
And if the world would show me any sign of hoping  
I'd love you 'til the end  
Yes, I'd love you 'til the end

I walked past a man, he was holding out his hand  
Said, "If you ain't careful, son, you're gonna wind up where I am"  
Take a back out of life, take some time to [?]  
What you give to the day you can steal from the night

True hearts ain't easy to find  
Just don't go further than this heart of mine  
These cards are here to remind us  
That we've been here before, it's just a matter of time  
True hearts ain't easy to find  
Just don't go further than this heart of mine  
These cards are here to remind us  
That we've been here before, it's just a matter of time
