Closer to me

Say nananananana

Say nananananana

Come closer to me

An unforgettable sweet chocolate

That's how my lips are

Easily addictive dangerous toxic
That's how it feels like to be embraced by me

You wanna keep on learning about me, I'm yours
You want to hug me, even though you pretend not to
There's no one else like me
Don't regret it, come closer before it's too late

Say nananananana I'll come a little closer
Say nananananana so you'll be attracted to me
Come closer to me
More dizzily closer to me
I whisper sweetly in your heart
So that I can reach you

You look collected without a wrinkle
I envy you for that
Your cold expression that tells me I can't have you
That is more thrilling

I want to hold your hand, you're mine
I want to lean on you, even though I pretend to be haughty
There's no one else like you
Don't let go of this moment, closer

Say nananananana I'll come a little closer
Say nananananana so you'll be attracted to me
Come closer to me
More dizzily closer to me
I whisper sweetly in your heart
So that I can reach you

I can almost touch you it makes me dizzy
You can come to me riskily
Tonight I am your real baby
Focus on only me baby
I can't take it anymore, now anymore
With you anymore
I'll get closer and kiss you tonight
I want to know, come to me deeper
I wan to whisper to you sweetly all night
Sweetly all night shh

Say nananananana I'll come a little closer
Say nananananana so you'll be attracted to me
Come closer to me
More dizzily closer to me
I whisper sweetly in your heart
So that I can reach you

Say nananananana I want to keep revolving around you
Say nananananana you'll only want me
Come closer to me
Tonight by my side closer to me
I'll melt into your warm heart
So that I can reach you
