Baby will you stay
Baby will you come to me
You got me feeling safe
Got me feeling like this loving can go comfortably

And baby don't you worry I can't fall asleep myself
I need you by my side with me, can't do this without help

Too deep
We in this too deep
You so meant for me
So come on over let's catch up on our sleep

Baby will you stay with me
Wrap your arms around me and just lay with me
