Am I an angel or a devil  
I'm only human so I guess both  
Am I an angel or a devil  
I'm only human so I guess both

Godspeed for the last time  
My rear view's like my past life  
My demons mad that I'm too fast  
Furious when I zoom past  
Bite the dust while I dash (Huh)  
The villain gets the last laugh (Huh)  
Thought I had the white hat  
But, I did some dirt, now it's black  
Who want smoke, I got gas  
Who gon' choke, who gon' gag  
Who gon' boast, who gon' brag  
Who want most of this wrath  
When I go to my path

Am I an angel or a devil  
I'm only human so I guess both  
Am I an angel or a devil  
I'm only human so I guess both

Am I an angel or a devil  
The question leaves them unsettled  
Heaven's gates told me: "hell no"  
Demons said I ain't special  
Antagonist, watch me meddle  
Tell the world, make it tremble  
The question leaves them unsettled  
Am I an angel or devil

Guess both!

The bond that we build cannot be broke  
Kin, these are family ties  
Let's ride 'til the wheels, fall off the road  
And reconnect in the sky  
The blood that we shed and that we cried  
Keeping with us 'til we die  
We had a hell of a ride  
But now it's time for goodbye

Am I an angel or a devil  
I'm only human so I guess both
