Dear boy, you're my angel
Let me show you a better day

How do I look today?
They say that I look prettier these days
I keep looking at the mirror
Today, I'm a pretty good-looking girl

Rub dub rub dub, I tremble
Whenever I think of you, I tremble
What to do with myself, oh oh
I seem like a fool
I'm embarassed for myself
But I want to have courage and tell you

Slowly, on your two cheeks, BuBiBu
I want to hold your hand tightly and BuBiBu

Looking at you give me tickles
Looking at you and I go lululala

Just by hearing your name,
Just by hearing your voice makes me feel good
I like you so much, I like you so much,
What do I do?

Little by little, on your lips, BuBiBu
You are my everything BuBiBu
Just by looking at you, I feel good
Just by hearing your name,
Just by hearing your voice makes me feel good
Like like like, I like like you so much,
What do I do? I like you
I like you, I like you
I like you, I like you

Even if you seem a bit cold and stony
You are a warm guy to me
I keep looking at your face
You're my one and only boyfriend

I keep, keep, keep
I keep thinking of you
What to do with myself, oh oh
I want to take a walk with you
I want to go on a picnic with you
There are so many things to do

Slowly, on your two cheeks, BuBiBu
I want to hold your hand tightly and BuBiBu
Looking at you give me tickles
Looking at you and I go lululala

Just by hearing your name,
Just by hearing your voice makes me feel good
I like you so much, I like you so much,
What do I do?

Little by little, on your lips, BuBiBu
You are my everything BuBiBu
Just by looking at you, I feel good
Just by hearing your name,
Just by hearing your voice makes me feel good
Like like like, I like like you so much,
What do I do? I like you

Slowly, on your two cheeks, BuBiBu
I want to hold your hand tightly and BuBiBu
Looking at you give me tickles
Looking at you and I go lululala

Just by hearing your name,
Just by hearing your voice makes me feel good
I like you so much, I like you so much,

Little by little, on your lips, BuBiBu
