000 00?

Will you think
I'm weird for saying this?
What if you think of me
As that kind of girl? Oh my boy
When I saw you by chance
I had this mysterious fluttering feeling

You came to me with the sunlight
You melted me in one try
Your warm eyes, your pretty smile
Everything is familiar to me
If I could see you just once more
If I could meet you just once more
Will there be an answer to this
Unbelievable situation?

Did you feel
The same thing as me?
Or am I just feeling it
On my own? Oh my boy

After I saw you by chance
I keep looking for you

You came to me with the sunlight
You melted me in one try

Your warm eyes, your pretty smile
Everything is familiar to me
If I could see you just once more
If I could meet you just once more
Will there be an answer to this
Unbelievable situation?

An ordinary day
Became a movie
I know, we still don't know
But will you wait just a little, babe?

You came to me with the sunlight
You melted me in one try
Your warm eyes, your pretty smile
Everything is familiar to me
If I could see you just once more
If I could meet you just once more
Instead of momentary connection
Do you want to be my lover?
