Holy Moly

A star above the desert
As If you were lonely like a tiny flower
I feel your heart in the rain
I'll leave out like the wind

An fate-like addiction, It gets stronger
Now, at this time, like the main character in a novel
You bloomed with me whenever I think of you

This feeling, holy moly, do you also feel it?
Where have you been? I found it
Together we hang out all night, I've been dreaming of
Our star where the sun never sets

Sparkling inside the dust
I remember you gesticulating me
You're my star, you will shine, lit the light
I love you everyday

Even if the sand stormy painful day comes
If I can't forget the feeling of my body temperature
I'm gonna run, hold your hand tightly

This feeling, holy moly, do you also feel it?
Where have you been? I found it
Together we hang out all night, I've been dreaming of

Our star where the sun never sets

I will be with you forever
Anywhere in the world, I will be with you
I will be with you forever (Hello)
Anywhere in the world, I will be with you (Hold my hands)

Woo, if it's a dream, let it last forever (Let it last forever)
When I'm thinking of you

This feeling, holy moly, you feel happy?
Where have you been? I found it
Together we hang out all night, I've been dreaming of
Our star where the sun never sets

This is just holy moly
Dup, d-d-dup, I found it
Together we hang out all night, I've been dreaming of
Our star where the sun never sets
Holy moly
