When I open my eyes
 In so many stars like a dream, you and me
 Even when I close my eyes
 We looked at each other like a dream, you and me
 As if time has stopped It feels like forever
 Right this moment
 You've stayed with me as you were in the beginning
 When I look at you and walk along quietly
 I felt like you were gonna disappear right at this moment
 I was sometimes afraid
 But you've always been the light to me

You and me like a miracle
 Meet right at this moment
 It was like a lie lie lie to me
 Right at this moment, you're just being with me
 It's like a miracle I've long dreamed of

You're looking at me, I'm looking at you
 The moments
 Become the strong scent that's embracing us

I hope in the distant future
 If the moments we shared
 Will become our memory
 You'll become a small flower and always be with me

You and me like a miracle
 Meet right at this moment
 It was like a lie lie lie to me

Right at this moment, you're just being with me
It's like a miracle I've long dreamed of

I meet you like an unbelievable miracle
Right at this moment
It's like a miracle I've long dreamed of
Right at this moment, you're just being with me
It's like a miracle I've long dreamed of

When I open my eyes In so many stars like a dream
You and me
Passed by so many dreams like a lie
You and me
