Don't be sad no no no no, you are not alone no no no  
You were always my light  
Hey, you can take my hand. you can always lean on me  
You don't have to be afraid anymore  
You made the painful times sweet  
By gently snuggling up and giving me a kiss  
It's like I'm wrapped up  
Under your spell

When you're feeling down  
Don't suffer through it alone  
Because if darkness comes around  
I will be there to shine a light

Don't be sad no no no no, you are not alone no no no  
You were always my light  
Hey, you can take my hand. you can always lean on me  
You don't have to be afraid anymore

You had so many dreams. when you were nervous  
You waited on miracles in those days  
You gave me a timid smile  
For the first time in the strong wind

I just want you to let it all out  
Don't hang your head in silence  
Even though everyone else is going away  
I will never leave you

Don't play tough no no no your sighs no no no

And your weaknesses, I love them all the same.  
Hey, you can take my hand. I always want it to be  
The two of us walking

Through it all, yeah it was only you  
Who believed in me  
I want to protect you. I will support you  
This time I want to be the one  
To send you love oh

Don't be sad no no no no, you are not alone no no no  
You were always my light  
Hey, you can take my hand. you can always lean on me  
You don't have to be afraid anymore
