My a aaaaaaa oh, my wishlist
My a aaaaaaa oh, my wishlist

In my dream I still don't know
My only one person (you you you you)
I always imagine by myself
The one who'll wake me up like the sunshine
Holding my hands and looking at my eyes
The person who'll listen to my story
Like in a drama or a movie
The person who'll come to me and keep me safe by my side

Come come come to me come closer step by step
With the image I dreamed of come to me
Sadness (is) bye bye bye you'll make me smile
I waited so long for
You you you come into my heart

My a aaaaaaa oh, my wishlist
My a aaaaaaa oh, my wishlist

Secretly again today in my dream
The person who makes me flutter (you you you you)
I'm always smiling
The person who makes me fall into a sweet imagination

I don't know love

The person who'll smile warmly at me
With any words that will be whispered sweetly to me
The person who'll be the light by my side

Come come come to me, come closer step by step
With the image I dreamed of come to me
Sadness (is) bye bye bye you'll make me smile
I waited so long for
You you you come into my heart

Just by thinking, just by drawing you
My heart flutters so much
More than anything and anybody else
The person who'll love me

Love (is) why why why still in my eyes
I can't see when will it come to me
Come come come closer come closer a bit quicker
The one I've always waited for
You you you come to my side
