

Piece Of The Peace

APO Hiking Society

I hold you near
A piece of the peace
And inside of you
Is the piece of the peace
If only we could put it together
A greater peace will come together
Woah

The rules of war
Are the same everywhere
There is no peace
If there is war everywhere
It's just one world
So let's keep it alive
Destroy the Earth
And all of us die

You and I
We must agree
That there's too many problems
For us to live in apathy
We must protect this galaxy
Not just for you and me
But for everybody's children's children
So they can have
A world of harmony

Inside of me
Is a piece of the peace
The key to save humanity
Together, we can make it better
So all the life can live forever

You and I
We must agree
That there's too many problems
For us to live in apathy
We must protect our galaxy
Not just for you and me
But for everybody's children's children
So they can have
A world of harmony

Everyone must come together
As one human family
We must treat the universe
As our responsibility
There can be no talk of changing
Unless we all change from within
And my father, mother, brother, sister
Must now lend a hand
