Gonna make enough noise to wake the dead!

It's going out of my head

Back from the land that time forgot

There's a party in the stadium parking lot

Come on

And there's a party goin' on

I can hear it goin' on

And there's a party goin' on

Bring it on!

Turnin' up the heat again

Come on

Gonna make enough noise to wake the dead!

I can hear it right now

It's going out of my head

Back from the land that time forgot

There's a party in the stadium parking lot

There's a party goin' on, party goin' on

I can hear it goin' on, party goin' on

There's a party goin' on

Bring it on!

Bring it on!

Turnin' up the heat again Come on

There's a party in the stadium parking lot There's a party goin' on, party goin' on I can hear it goin' on, party goin' on There's a party goin' on Bring it on! There's a party in the stadium parking lot
