

# Dreaming

Apollo LTD

There's so much on your mind and I see it in your eyes  
Some days, you're gonna wanna hide  
And your brain just keeps going  
There's a rhythm inside your head  
There's a light down deep in there  
Let it all flow through your hands and make it all pass you

Oh  
Come on out, sing it loud, let the sun shine on your face  
Oh  
Don't hide away, go be free, you're alive when you're dreaming

Some day, you're gonna take a chance  
Step out and start to dance  
If it don't go as you planned, just keep your feet moving  
Let the spirit fill your sails  
Don't be afraid to fail  
Draw from the well and keep your cup overflowing  
Keep your cup overflowing (Yeah)

Oh  
Come on out, sing it loud, let the sun shine on your face  
Oh  
Don't hide away, go be free, you're alive when you're dreaming  
You're alive when you're dreaming  
You're alive when you're dreaming

You're alive when you're dreaming

When you close your eyes at night and drift off to sleep  
I pray that you'll remember there's a song that only you can sing  
When the world tries to break your heart  
The light will always cast away the dark  
Oh, the light will always cast away the dark

Oh  
Come on out, sing it loud, let the sun shine on your face  
Oh  
Don't hide away, go be free, you're alive when you're dreaming  
Oh  
Come on out, sing it loud, let the sun shine on your face  
Oh  
Don't hide away, go be free, you're alive when you're dreaming

You're only alive when you're dreaming  
You're only alive when you're dreaming  
You're only alive when you're dreaming  
You're only alive when you're dreaming  
You're only alive when you're dreaming  
You're only alive when you're dreaming
