Apollo LTD

I see it now when I'm looking back
The story told in the aftermath
All my back streets and my dead-ends
Suddenly started making sense

Ready to let go, giving You control
Put this pedal to the floor, now let's go

The only life is the one You make
Wouldn't want it any other way
Freedom lies in the road You take
Wouldn't want it any other way
I'm down to ride
I'll let You drive
I'm down to ride
I'll let You dri-i-ive

We can paint all the windows black
Trust the future, forget the past
Take the wheel like I know You can
I love the way it looks in Your hands

Ready to let go, giving You control
Put this pedal to the floor, now let's go

The only life is the one You make
Wouldn't want it any other way
Freedom lies in the road You take
Wouldn't want it any other way
I'm down to ride
I'll let You drive
I'm down to ride
I'll let You dri-i-ive

Won't run away from the feeling
Let it out, out, out, out
Won't run away from the feeling
Live it loud, loud, loud, loud

Wouldn't want it any other way
Freedom lies in the road You take
Wouldn't want it any other way
I'm down to ride
I'll let You drive
I'm down to ride
I'll let You dri-i-ive
