

# Future's Calling

Apollo LTD

Is anyone out there?  
Is anyone listening?  
Is there any path to understand  
Or is it just a mystery?  
Its gotta be out there  
The key to everything  
Call it the Answer  
Call it our Savior  
Or call it a remedy

I know you're lonely  
And your broken hearted  
Always fighting to find your way  
You're barely holding on, holding on, holding on  
But all you need is just a little faith  
The future's is calling your name

(Only a fool would try to resist it)

Hello human  
Hello suffering  
It's hard to reconcile what is  
And the way it was meant to be  
Something's about to give  
Standing on the brink  
Call it a breakthrough, call it a rescue  
Call it your destiny

I know you're lonely  
And your broken hearted  
Always fighting to find your way  
Oh just keep holding on  
All you need is just a little faith  
The Future's calling your name

(Only a fool would try to resist it)  
All you need is just a little faith  
The future's calling your name  
(Only a fool would try to resist it)  
All you need is just a little faith hey hey hey hey  
(Only a fool)  
All you need is just a little faith  
When heaven's calling your name  
(Only a fool)  
Ah you gotta believe me  
The Future's calling your name
