I was lost in the light, I was blind but now I can see it
I was caught in the web of a lie that I was defeated
Well, it's hard for a heart to restart but I need to reset it
Not a way to erase what I've done but I need to forget it

But the beautiful thing You're doing
Is making new things out of ruins

All of the things I've been through
You put 'em in the rear view
Everything that You hold
You make it shine like gold
You hold the doors wide open
There's nothing Your love leaves broken
Everything that You hold
You make it shine like gold

There were times that I tried to get it right
But I couldn't understand it
Then I tripped and I fell on myself
You were right where I landed
You're the song that I've sung all along
And a mountain worth climbing
Looking out, even now
Not a doubt You're the rhythm inside me

All of the things I've been through
You put 'em in the rear view
Everything that You hold
You make it shine like gold
You hold the doors wide open
There's nothing Your love leaves broken
Everything that you hold
You make it shine like gold
You make it shine like gold

But the beautiful thing that You're doing
Is making new things out of ruins

All of the things I've been through
You put 'em in the rear view
Everything that You hold
You make it shine like gold
You hold the doors wide open
There's nothing Your love leaves broken
Everything that you hold
You make it shine like gold
You make it shine like gold
