

# Heart Believes

Apollo LTD

Like the wind on my face  
I can feel You, but my eyes can't see You  
Like the radio waves  
I can hear You, but my hands can't hold You

(Oh-oh-oh-oh-oh) I don't have to understand it all  
(Oh-oh-oh-oh-oh) To trust it in my soul

I know You are there  
You're gonna make a way somehow  
I know You're working all things out  
Don't have to prove it  
'Cause I can feel You moving  
My eyes have never seen, but my heart believes

My heart, my heart, my heart believes  
My heart, my heart, my heart believes

Like the light of the sun  
You're shining in the darkest places (Places)  
Like the breath in my lungs  
You bring life into the empty spaces (Spaces)

(Oh-oh-oh-oh-oh) I don't have to understand it all  
(Oh-oh-oh-oh-oh) To trust it in my soul

I know You are there  
You're gonna make a way somehow  
I know You're working all things out  
Don't have to prove it  
'Cause I can feel You moving  
My eyes have never seen, but my heart believes

My heart, my heart, my heart believes  
My heart, my heart, my heart believes

I'm fully confident here in the mystery  
It's hard to comprehend, but my heart believes  
All the evidence that I will ever need  
Is right in front of me

Like the wind on my face  
I can feel You, but my eyes can't see You

I know You are there  
You're gonna make a way somehow  
I know You're working all things out  
Don't have to prove it  
'Cause I can feel You moving  
My eyes have never seen, but my heart believes

My heart, my heart, my heart believes  
My heart, my heart, my heart believes

I'm fully confident here in the mystery  
It's hard to comprehend, but my heart believes  
All the evidence that I will ever need

Is right in front of me (My heart believes)
