

Just What I Needed

Apollo LTD

Oh
I'm feeling outta control
All the chaos, I've been facing
Feeling lost, can't navigate it
All alone
I've tried it on my own
But every time I had a grip
I'd start to slip 'til I'd let it go

I guess it's out of my hands
Oh it's out of my hands
I guess it's out of my hands
Oh it's out of my hands

I tell myself
There's got to be a remedy for this
Hole I've felt
For so long now I can't ignore it
How many times have I tried to fight it?
I can't control it I can't deny it
'Cause there's nothing else
You're just what I needed

Oh you're just what I needed
Oh you're just what I needed

Now
I'm waking up
Trying to let go of the feeling
That my memory keeps repeating
All the lies
Inside my mind
That my past will always be
The part of me I can't leave behind (Can't leave behind)

I tell myself
There's got to be a remedy for this
Hole I've felt
For so long now I can't ignore it
How many times have I tried to fight it?
I can't control it I can't deny it
'Cause there's nothing else
You're just what I needed

Oh you're just what I needed
Oh you're just what I needed
Oh you're just what I needed
Oh you're just what I needed

I guess it's out of my hands
Oh it's out of my hands
I guess it's out of my hands
Oh it's out of my hands

I tell myself
There's got to be a remedy for this
Hole I've felt

For so long now I can't ignore it
How many times have I tried to fight it?
I can't control it I can't deny it
'Cause there's nothing else
You're just what I needed

Oh you're just what I needed
Oh you're just what I needed
Oh you're just what I needed
Oh you're just what I needed
