

# Living Proof

Apollo LTD

Your love is life and I am living proof

There is no doubt about it  
I feel it in my veins  
Your love's got me surrounded  
I am forever changed

I've stumbled through the darkness  
I've felt those heavy chains  
I heard the sound of a thousand oceans parting  
When I heard you call my name

Like a soul set free when your light broke through  
I was all but lost until my heart found you  
By your grace oh God I have been made new  
Yeah your love is life and I am living proof  
Your love is life and I am living proof

I felt my world awaken  
The day you rescued me  
You filled my life with a joy that can't be shaken  
And now I'm walking in the victory

Like a soul set free when your light broke through  
I was all but lost until my heart found you  
By your grace oh God I have been made new  
Yeah your love is life and I am living proof  
Your love is life and I am living proof

By your grace oh God I have been made new  
Yeah your love is life and I am living proof  
Your love is life and I am living proof
