

No Limit

Apollo LTD

If I could reach into the sky
Pull down every star, know every answer why
If I could shout at the top of my lungs
Melodies to a song that's never been sung
If I could dream in colors unseen
Hold the key to every mystery
And trace the sky fading into the sea
It still wouldn't compare to the way You love me

Because Your love, it has no limit
I know the light will never cease
Oh, horizon never ending
Infinite heart, boundless love
Over me

What would it take?
Where would I start?
To measure the depth of such impossible heart
Like a wild frontier
No one's tamed yet
Deep as the universe above my head
It's larger than life, but easy to miss
While searching for boundaries that don't exist
So be who You are
And I will do the same
And try to receive what I can't explain

Because Your love, it has no limit
I know the light will never cease
Oh, horizon never ending
Infinite heart, boundless love
Over me
Over me

What would it take?
Where would I start?
To measure the depth of such impossible heart

Love, it has no limit
I know the light will never cease
Oh, horizon never ending
Infinite heart, boundless love
Over me

Over me
