

Rulers

Apollo LTD

They can try to hold you back
Standing in your way
They can try to make you crack
Try to make you bend 'til you break
You gotta be brave

Shake away the shadows
Rise above the pain
Facin' every fear you know
Is flowin' through your veins
This is your fate

Feel it in my bones
Rolling like a stone
Destiny was made for ya
All you ever known
Stepping up to the throne
We were made to be rulers
Future's in your hand
There's no other plan
Royalty was made for ya
All we ever known
Stepping up to the throne
We were made to be

Rulers, rulers
Rulers, rulers
Rulers

Heart of a conquerer
Heir to the crown
Chasing after kingdom come
Turning these streets to hallowed ground
We're never slowing down

Feel it in my bones
Rolling like a stone
Destiny was made for ya
All you ever known
Stepping up to the throne
We were made to be rulers
Future's in your hand
There's no other plan
Royalty was made for ya
All we ever known
Stepping up to the throne
We were made to be

Feel it in my bones
Rolling like a stone
Destiny was made for ya
All you ever known
Stepping up to the throne
We were made to be rulers
Future's in your hand
There's no other plan
Royalty was made for ya

All we ever known
Stepping up to the throne
We were made to be

Rulers, rulers
