

Supernatural

Apollo LTD

I got no reason for the things I do
I hurt myself and then I hurt you too
I say too many things that I don't mean
And then I'm back and I'm down on my knees

Floating in the waves alone
Tell me we can work it out
Swallowed by the raging sea
Tell me that You're never gonna let me drown

Love, Your love
The feeling that You've given to me
Love, Your love
A supernatural energy

Alright (Oh yeah)
Alright (Oh yeah)
A supernatural energy
Alright (Oh yeah)
Alright (Oh yeah)
A supernatural energy

I lie awake at night, no, I don't sleep
I feel the darkness hanging over me
But there's an aura that's around Your eyes
A silhouette, a spark of golden light

Floating in the waves alone
Tell me we can work it out
Swallowed by the raging sea
Tell me that You're never gonna let me drown

Love, Your love
The feeling that You've given to me
Love, Your love
A supernatural energy

Alright (Oh yeah)
Alright (Oh yeah)
A supernatural energy
Alright (Oh yeah)
Alright (Oh yeah)
A supernatural energy

Love, Your love
The feeling that You've given to me
Love, Your love
A supernatural energy

Alright (Oh yeah)
Alright (Oh yeah)
A supernatural energy
Alright (Oh yeah)
Alright (Oh yeah)
A supernatural energy
