

Dead Air Einz

Apoptygma Berzerk

Deep in the night i've lost track of time
someone's reaching out from the other side
5 by 5, clearest day
the message's being sent from far away

i hear your voice loud and clear
at the appointed time i'll meet you in the air

the more i seek, the more it's brought to light
pathetic noise turns into a voice
decoded signals, it's all right there
you miss the message, if you're unaware

i hear your voice loud and clear
at the appointed time i'll meet you in the air (3x)

i hear your voice (4x)
