

# Paranoia

Apoptygma Berzerk

Chew the pill that tastes like hell, but gives you strength  
Embrace the drug that makes you mad, cause still it turns you i  
nto

Something else

Feel the need for love grows stronger!

Swap your mind for a mirror-

search, and shake until the break of day

One day you'll realize that you were wrong

And you'll regret that all this happened

Did it (all) happen?

Some day you'll realize that you were wrong

(You'll be) Left with paranoia, (as your only friend)

Your mind is full of enemies, the room is full of energies

That want to take control

They're all around you, and you're all alone

Your mind is full of enemies, the room is full of energies

Haunting your soul

They're all around you, and you're on your own

One day you'll realize that you were wrong

You'll regret that all this happened

Some day you'll realize that you were wrong

To be left with Paranoia
