

# Falling Down

April Wine

He can't take it 'cause it's on the ground,  
He can't touch it 'cause it's falling down,  
He can't touch it 'cause it's on the ground,  
He can't touch it 'cause it's falling down,

So you keep on, it's all you need,  
The wishbone's coming and it's guaranteed,  
You can't touch it 'cause it's on the ground,  
He can't touch it 'cause it's fallin' down.

Search for morals and it's so unconsciously,  
Pressed for knowledge, just another wannabe.  
And it feels like it,  
And it tastes like it,  
And it smells like it does.

Man in the back says prepare to attack  
I said the man in the back ain't coming back  
The man in the back says prepare to attack  
Say the man in the back, can't look back

Falling through the cracks in Portage,  
Hanging on to an immoral calling,  
And it looks like it  
And it walks like it  
And it talks like it does.

Falling down,  
Feel like I'm falling,  
Falling down,  
Through a black hole,  
Falling down,  
There's no sense to it  
Falling down.

Your money ain't counted and it don't mean nothin',  
Cause there's nothin' comin' in a no risk zone,  
Walk by the business and show him the key  
I say walk and be that way

I said I guarantee you're thinking that it's all the same,  
And everybody says that you can't go there,  
Can't do nothin', but it's all right  
My wishbone says be here tonight.

Falling down,  
Feel like I'm falling,  
Falling down,  
Through a black hole,  
Falling down,  
There's no excuse for it

Falling down,  
That's how I'm feeling,  
Falling down,  
Like I'm goin' down,  
Falling down,

Feel like I'm losin',

Feel like I'm losin' ground,

Falling down,

Feel like I'm falling,

Falling down,

Through a black hole,

Falling down,

There's no excuse baby,

Down.
