

## Like a Lover, Like a Song

April Wine

I don't wanna talk about that anymore  
When there's nothin' goin' on, and somethin' should be done  
'Cause we believed for nothin' it seems  
And, now it's ended broken-hearted  
And, as anyone can see, there was no way we'd agree

And, we can get there if we try  
And, I wanna live if I have to die  
And, it'll come so sweet and softly, like a song  
And, really turn me on, like a lover like a song  
Really turn me on, turn me on

It seems there's somethin' deep inside of you  
And, I can tell that you've been lonely  
And, you've had hard times too  
'Cause we believed for nothin', it seems  
And, now it's shattered all apart, like a broken heart  
It's the end, it's a start

And, we can get there if we try  
And, I wanna live if I have to die  
And, it'll come so sweet and softly, like a song  
And, really turn me on, like a lover like a song  
Really turn me on, really turn me on

And, there's somethin' inside that's been burnin'  
And, there's somethin' inside I've been learnin'  
And, I can't hide cause it's all over me  
And, deep inside of you, inside of you  
Deep inside of you, inside of you

I don't wanna talk about that anymore  
When there's nothin' goin' on  
And, somethin' should be done  
'Cause we believed for nothin', it seems  
And, now it's ended broken-hearted  
And, as anyone can see, there was no way we'd agree

And, we can get there if we try  
And, I wanna live if I have to die  
And, here's a chance for you to see  
What this pain's been doin' to me  
And, I wanna lose it everyone  
And, have a heartache on the run  
And, we can get there if we try  
And, I wanna live if I have to die  
If I have to die, if I have to die
