

Looking for a Place (We've Never Been)

April Wine

Times of challenge fog our memory,
Looking forward never back to see,
Shadows dancing in the soul of dawn,
Pages written and the words are sung.
Eternal motion leads the way,
And so I say,

Ooooh everything is getting better,
Goin' somewhere that we've never seen,
'Cause nothing's gonna last forever,
Searching for a place we've never been.

In a world of possibilities,
There's no proof of immortality,
Facing consequences, you and I,
In a world where there's no compromise,
We look inside ourselves to find,
Like all mankind,

Ooooh everything is getting better,
Goin' somewhere that we've never seen,
'Cause nothing's gonna last forever,
Searching for a place we've never been.

In a world of outside change,
We still remain.

Ooooh everything is getting better,
Goin' somewhere that we've never seen,
'Cause nothing's gonna last forever,
Searching for a place we've never been.

Ooooh everything is getting better,
Goin' somewhere that we've never seen,
'Cause nothing's gonna last forever,
Searching for a place we've never been.
