

Here And Now

Aqualung

So
We've been spiralling
Been spinning around between a haven't and a had
And
Never deciphering
Just why and when it all began to go so bad
Yet
There's no denying love
It's just gets harder to tell if you're drifting in
Or fading out

Oh but I
I miss your kiss
I miss your smile

I hope you know
Here and now
I'm telling you I love you so
Here and now
How
This is a love worth fighting for
Here and now
So
While my heart's
Beating
Let's be in love

When
We become becalmed
When we run aground
Out in the middle of the open sea
Please don't delete your messages
Just bottle them up and
Hope they float around to me

Darling I
I miss your kiss
I miss your smile

I hope you know
Here and now
I'm telling you I love you so
Here and now
How
This is a love worth fighting for
Here and now
So
While my heart's
Beating
Let's be in love
Let's be in love

Let's be in love
Let's be in love

I hope you know
Here and now

I'm telling you I love you so
Here and now
How
This is a love worth fighting for
Here and now
So
While my hand
Holding
Holding my breath
Breathing
My heart's
Beating
Let's be in love
Let's be in love
Let's be in love
Let's be in love
