

Swallow

Aqualung

When did I get so big for my shoes?
Am I left right left behind
I feel like there's someone else singing my blues
Like I'm mute, newt, left behind

Swallow me down
Swallow me down
There is only one way
Follow me down
Follow me down
Cos there's only one way (in)

Can't sit down
There's a ghost in my chair
There's no nowhere for me here
Drop and I drift
It's the same everywhere
There's no nowhere left for me here

Swallow me down
Swallow me down
There is only one way
Follow me down
Follow me down
Cos there's only one way (in)
