

## Use Me

Aqualung

Why do you grow your teeth so long  
Why wait til you've bitten yourself?  
What do you need to wear them down?  
Who is looking out for your dental health?  
What if everything that you want  
Is a cover up - that's covering up  
What you've already found?

Cos I got  
Every little thing you need  
So why not  
Slide a little closer  
Glide a little closer

Cos life runs a lifetime  
Romance has a half life  
You don't have to lose me  
Just learn how to use me  
Life lasts a lifetime  
Romance has a half life  
You don't have to choose me  
Just learn how to use me

When did we drift so far?  
I swear the tide was pulling us in  
But now I can't see the shore  
We can go anywhere, but where to begin?  
What are you looking for when we've got  
Everything we'll ever need  
Just use a little imagination  
A little imagination

Cos life runs a lifetime  
Romance has a half life  
You don't have to lose me  
Just learn how to use me  
Life lasts a lifetime  
Romance has a half life  
You don't have to choose me  
Just learn how to use me

Just learn how to use me  
Just learn how to use me  
How to use me  
Just learn how to use me
