

Blindside

Aquilo

Blindside

How did you creep up on my blindside?

I'm not the one who wants this

Aren't I the one who gets to leave?

Almost

You almost made me think I want this

I look at the way we live

And only see things I'd given up

And I could say that I'm broken, but i'm not

And I could fake that i'm hurtin', but i know that's all you want from me

Tell you I love you, but I don't

Can I stay the night?

Just let me stay the night

Hold on, you should've said something in the moment

I know I let it go cold before

But didn't you just leave me with your silence?

And I could say that I'm broken, but i'm not

And I could fake that i'm hurtin', but i know that's all you want from me

Say that I love you, but I don't

Can I stay the night?

Just let me stay the night

Always trouble in the way

Always trouble in the way

Oh, why does it have to be today?

But I could say that I'm broken, but i'm not

And I could fake that i'm hurtin', but i know

That's all you want from me

Tell you I love you, but I don't

Can I stay the night?

Just let me stay the night
