

Moon River

Aquilo

Down comes the wind like a feather in space
We were born in Leicester Square
I'm coming up in a field, super sonic
Who was I when you weren't there

I hear moon river, it's a crowd killer
And the melody can only lie to you
I get lost in the feeling in my head on the ceiling
And I hate the way there is nothing I can do
And if it breaks your heart then it's good
Then it's good, then it's good

Talk to me darling, I'm no good with silence
Let this soundtrack drown out this goodbye

I hear moon river, it's a crowd killer
And the melody can only lie to you
(Can only lie to you)
I get lost in the feeling in my head on the ceiling
(In my head on the ceiling)
And I hate the way there is nothing I can do
And if it breaks your heart then it's good
Then it's good, then it's good

The thought of you
On the moon

I hear moon river, it's a crowd killer
And the melody can only lie to you
I get lost in the feeling in my head on the ceiling
And I hate the way there is nothing I can do
And if it breaks your heart then it's good
Then it's good, then it's good
Let it break your heart 'cause it should
'Cause it should, 'cause it should
